

Tallinn City IT Scholarship

Tallinn City information technology scholarship is designed to motivate the students of TTÜ IT College to:

- Participate in IT projects relevant to Tallinn City
- Write a thesis (or as an exception a project) on topics offered by Tallinn City or topics relevant to Tallinn City

The call for applications for three scholarships for the spring semester of the academic year 2017/2018 is open. The amount of one scholarship is 1400 euros (to be paid in two parts according to the scholarship agreement).

Students who meet the following criteria, are welcome to apply:

- The student is matriculated in Tallinn University of Technology and is not on an academic leave;
- The student fulfils the part-time or full-time study load and has passed the courses of the first academic year;
- The student studies in one of the following study programs:
 - IT Systems Administration;
 - IT Systems Development;
 - Information Systems Analysis;
 - Cyber Security Engineering.
- The student's grade point average for the semester preceding application is at least 3.5.
- The student participates in IT projects relevant to Tallinn City or writes a thesis (or as an exception a project) on topics offered by Tallinn City or topics relevant to Tallinn City.

In order to apply, send an application to Director of TTÜ IT College to the address stipendium@itcollege.ee (in the subject line write "Tallinn 2018"). The following must be attached to the e-mail:

- *Curriculum vitae*
- Project description

All the questions related to the scholarship or application process should be sent to the e-mail address stipendium@itcollege.ee.

The application submitted by the scholarship applicant, the relevance of the project to the topics important to the City of Tallinn and the student's grade point average will be taken into account upon granting the scholarship.

The deadline for submission of applications is 2 April 2018 (12:00 am).
